Bob's Turkey Farm – Fresh Turkey

Our turkeys are a Broad Breasted White Turkey originating in Andover, MA. We breed, raise, and slaughter all of our own turkeys here in Lancaster. All of our turkeys are fed a well balanced grain diet. We also use a preventative feed for the first four weeks of life. This gives our birds a healthy start before they transition to natural nutrients. Our birds are grown in barns and outdoor pens, free to move around as they wish.

<http://www.chevre.com>

"Chevre" is the French term for goat cheese and "Capri" is the term for the goat cheese made in America by Westfield Farm. Whether called Chevre, Capri, goat cheese or just plain cheese, it is made farm fresh, by hand and with pride. Westfield Farm has been handcrafting award-winning farmstead cheeses in Hubbardston, Mass., since 1971.

<http://www.riverrockfarm.com>

We sell naturally-raised beef. Our beef is raised on natural feeds with no antibiotic or artificial feed additives and without artificial growth hormones. We sell a wide variety of dry aged steaks, roasts, and ground beef.

<http://www.clearflourbread.com>

Clear Flour Bread specializes in making the authentic breads of Italy and France. Using simple ingredients - flour, water, salt and yeast - we scratch mix and hand shape long fermented doughs for stone hearth baking.
